

# Bird Photo Archive

## Give us your best shot

# What we need

- Clear side profile pictures of whole bird
- Adults / juvenile / moulting
- Breeding / non-breeding plumages
- Male and female birds if sexually dimorphic
- Flight shots
- Habitat shots
- Behaviour documentation: feeding or foraging, display, any other interesting behaviour

**The purpose of photographs is for easy identification & representation.**

**Pictures taken in West Bengal are preferred, followed by Sikkim, and only then other parts of India so that we are true in terms of subspecies**

# Submission Format

- Members should send upto 3 photos of one species only per email
- Please crop and compose your pictures in landscape mode in 4:3 aspect ratio in jpeg mode
- Exif data with GPS coordinates must be intact, if available
- Minimal post processing: Only basic exposure adjustment and sharpening with noise reduction. No color related changes.
- File naming: Species name\_photographers name
- Date and place of photograph in email

## **Mailing Address:**

[bwsbirdsarchive@gmail.com](mailto:bwsbirdsarchive@gmail.com)

List of bird species will be placed on a Friday and submissions will be open until midnight of the next week's Sunday (10 days)
